## Shinnoki

### Prefinished Wood Veneered Panel Sales Sheet

#### REAL WOOD — IN STOCK & READY TO INSTALL

Shinnoki is a prefinished wood veneer panel that delivers **the beauty of real wood in a ready-to-use format**.

Built with a ¾" thick moisture-resistant MDF core and finished with 0.6mm wood veneer on both sides, each panel is fully balanced and finished straight from the factory. No staining or sealing is required.

Ideal for **architectural millwork**, **cabinetry**, and **wall applications**, Shinnoki brings natural texture, color consistency, and easy workability to your next interior project.

#### SHINNOKI PANEL

¾" × 4' × 9' MDF panel with real wood veneer on both sides.

Comes with two matching edge banding options:

- Real wood veneer (standard)
- ABS banding (recommended for drawers & cabinets)

#### SHINNOKI "LAMINATE"

1 mm thick laminate – real wood veneer on a flexible phenolic backer.

Sized 4' × 10' and ideal for curved surfaces and doors

This product is not HPL and is not suitable for use as a wall covering. It must adhere to the millwork substrate

#### DESIGNERS LOVE SHINNOKI

- 18 colors in a natural matte finish
- Seamless Mixmatch grain for scalable production
- Easy to fabricate: just cut, edge band, and install
- Beautiful selection of European oak, American walnut, triba, sapele, and eucalyptus

## ARCHITECTURAL MATERIALS

### THE LOOK IS NATURAL, YET CONSISTENT

Every Shinnoki panel features a Mixmatch layup—an innovative, proprietary sequencing method using alternating cuts from seven different trees of the same FSC species and grading. This creates a surface that feels **natural** and **varied**, yet **visually consistent** across multiple panels.
